

Press Release

HENEX: SIDC Continuous Trading Data Now Available on the NEMO Transparency Platform

Athens, 18 February 2026

The Hellenic Energy Exchange (HEEnEX) is pleased to announce that, as of 18 February 2026, Single Intraday Continuous Trading (SIDC-CT) data for the Greek Bidding Zone is now available on the NEMO Transparency Platform.

This development marks an important step forward in enhancing market transparency and accessibility for participants active in the Greek and broader European electricity markets.

Through the NEMO Transparency Platform, stakeholders can now access SIDC-CT data published by HEEnEX, alongside data from other participating NEMOs) including GME for the Italian Bidding Zones.

The NEMO Transparency Platform currently covers the Czech Republic, Greece, Italy, Portugal, Slovakia, and Spain, contributing to greater transparency and harmonisation across European power markets.

We look forward to continued collaboration and to welcoming other NEMOs to the platform. HEEnEX also welcomes feedback from market participants to further enhance the value and usability of the published data.

The NEMO Transparency Platform is available at: www.nemotransparencyplatform.eu
